

RLINE

53-D-240

COMBUSTIBLE GAS LEAK DETECTOR

FEATURES

- Super sensitive
- Adjustable sensitivity levels
- No calibration required
- Long life sensor
- Audio volume control
- Cordless
- Operates on 4 AA alkaline batteries
- Finds leaks in contaminated areas
- Includes holster with belt clip
- Low battery indicator

APPLICATIONS

- Find leaks in gas lines and pipes
- Use on combustion appliances
- Propane filling stations
- Fuel in marine bilges
- Fuel tanks before welding
- Check manholes for safety
- Find leaks in heat exchangers
- Liquid or gas heating systems
- Engine exhaust and fuel leaks
- Arson residue (accelerants)
- IAQ Tests

DETECTABLE GASES (partial list)

- Acetylene
- Ethanol
- Methanol
- Gasoline
- Ammonia
- Methane
- Propane
- Ethane
- Acetone
- Hydrogen
- Iso-Butane
- Methyl Ether
- Toluene
- Benzene
- Hexane
- Ethylene
- Pentane
- Propylene
- H. Sulfide
- Xylene

SPECIFICATIONS

Sensitivity:	5 ppm Methane: 2 ppm Propane
Power Supply:	4 AA Alkaline Batteries
Operating Temperature Range:	0°C to 40°C (32°F to 105°F)
Battery Life:	30 Hours Continuous
Warm up time:	Less Than 30 Seconds
Probe Length:	42 cm (16.5")
Total Reach:	61 cm (24")
Weight:	0.35 kg (12.3 oz.)
Certifications:	Intrinsic Safety, CE
