

CONDENSATE DRAIN PAN & DUCT MAINTENANCE

INDOOR AIR QUALITY SOLUTIONS

DiversiTech® provides comprehensive condensate drain pan maintenance solutions for Indoor Air Quality using its simple 3-Step process. The first step uses **Triple-D®** for cleaning evaporator coils and pans. The second step involves using **Sani C-N-D™** with its EPA registered biocide for disinfecting. The third step involves two options. The first option is using **Pro-Treat®** tablets or pan strips for short-term prevention against bacteria and mold and the second option uses **Flow Plus™** for the long-term prevention against slime, sludge and prevention of dust and environmental debris build-up. For further improvements in indoor air quality, DiversiTech recommends **Duct-Fresh™** gel and spray for ducts.

Step 1: Clean using **Triple-D®** as it degreases and removes an important source of contamination that can create sludge and slime in the drain pan and cause water overflow.

Step 2: Disinfect using **Sani C-N-D™** to ensure control of many airborne pathogens that can be spread via contaminated air handling equipment.

Step 3: Maintain using **Pro-Treat®-151***, **152**, **161**, **200** or **217** tablets or **Pan Strips®** for short-term and **Flow Plus™** stackable pan tablets for long-term maintenance.

Bonus Step: Neutralize odors by using **Duct-Fresh™** gel and spray that destroys pet, smoke, and musty smells in residential, commercial, and industrial applications.

*EPA Registered

Triple-D® is a universal cleaning solution that removes a broad range of soils as a detergent while degreasing and deodorizing.

Sani C-N-D™ is a ready-to-use EPA registered disinfectant, fungicide, mildewstat, and viricide remover.

Pro-Treat® comes in tablets and pan strips that kill odors and removes slime and sludge. Multiple variations are available including EPA registered **Pro-Treat®-151** and **Pan Strips** ranging from 3/4 ton to 50 ton systems. Monthly treatment system.

Flow Plus™ is a unique long-term polymer formula that maintains condensate flow and prevents drain pan overflow. It is an activated release that has stackable tablets for systems ranging from 1/2 ton to 50 ton systems. Effective for up to six months.

Duct-Fresh™ Gel and Spray is a super effective odor neutralizer that is effective for up to six months.

CONDENSATE FLOOD PREVENTION SOLUTIONS

DiversiTech® provides a broad range of condensate drain line, pan and indoor air quality solutions including:

- Condensate Overflow Monitoring
 - Wet Switch
 - Universal Alarm
 - Pipe / Pan Mounted Switches
 - New & Improved CS-1, CS-2, and CS-3
- Condensate Drain Line Maintenance
 - DrainGun™, DrainDawg™ and DrainKat™
 - A/C Easy Tee®
- Condensate Drain Pan & Duct Maintenance
 - Using DiversiTech's three proven steps for improving Indoor Air Quality including:
 - Condensate Cleaners
 - Disinfectants
 - Pan Treatment Solutions

NEW & IMPROVED!

CONDENSATE OVERFLOW MONITORING

WET SWITCH® FLOOD DETECTION CS-1 AND CS-2

The Wet Switch® prevents the potential for flooding damage to carpets, furniture, walls and ceilings by shutting down the system if moisture is detected. It may be placed in the secondary drain pan or on the floor.

Additional features and benefits include:

- LED indicator notifying homeowner or technician that system has been turned off
- Push-to-test button
- Connects to 24 VAC
- Multiple units may be connected
- Can be used in 5 amp circuits

UNIVERSAL ALARM

The Universal Alarm connects to existing 24 VAC control circuits to indicate possible system trouble.

- An alarm sounds if a condensate pump or flood prevention trip occurs (WS-1, CC-1, CS-1, CS-2, & CS-3)
- Silence button allows the homeowner to quiet the alarm until service is obtained

PIPE MOUNTED SWITCHES

The CS-1 (primary or auxiliary) and CS-2 (auxiliary) flood prevention switches provide installers with:

- Small size for serviceability
- A pull-to-test lever for verifying correct installation
- An integrated light indicator notifying a homeowner or technician activation has occurred
- A versatile and durable design
- An internal surge protector reducing the risk of switch damage and the associated flooding
- Proven magnetic reed switch

Shown: CS-1 (Primary or Auxiliary)

Shown: CS-2 (Auxiliary)

PAN MOUNTED SWITCHES

CS-3

The CS-3 is a new and improved pan flood prevention switch that is easy to install anywhere on the drain pan. After clipping the CS-3 to the drain pan wall, the activation level can easily be adjusted by moving the nuts on the threaded shaft.

- Proven magnetic reed switch

CS1200 AC SHUTOFF SWITCH

The CS1200 is a fast installing, reliable, condensate overflow detection pan switch. Featuring a unique universal pan mount design to ensure accurate detection in metal or plastic secondary drain pans. UL508 Approved.

CC-1

The Condensate Cop is a unique clamp-on float switch that fits easily over the edge of all types of plastic and metal drain pans. The probe features an inlet grill which prevents the float from being blocked or damaged by insulation or other debris.

CONDENSATE DRAIN LINE MAINTENANCE

DRAININGUN™ - SWOOSH CO₂

The DrainGun™ is a lightweight portable blow-out tool designed to clear drain lines instantly. Paired with 800 PSI SWOOSH CO₂ cartridges, oil-free air is blown through the line every time. Each unit comes with a tapered fitting to work on 3/8" and 3/4" drain openings.

DRAINDAWG™

The DrainDawg™ is a complete condensate drain cleaning kit, including the CT-475M deluxe nitrogen/CO₂ 0-475 PSI regulator, the TG-10 & BS-25 ten foot hose and blowgun assembly, and the CW-15 fifteen inch whip hose. Also included is the AP-DD DrainDawg™ Accessory Fitting Kit which contains the DF-75 DrainDawg™ inflatable tip, the CK-141 3/4" -1" cone fitting, the FA-02 CO₂ to nitrogen adapter, the QN-S3 needle tip, and the TC-25 tire chuck. Made in the USA.

DRAIN KAT™

The DrainKat™ is an over the shoulder refillable, nitrogen or CO₂ mini drain cleaning kit. Featuring a small cylinder that holds either 9 cubic feet of nitrogen or 2-1/2 pounds of carbon dioxide, it includes an integrated mounted regulator for quick and easy adjustment for discharge pressure providing the right amount needed. Furnished complete with an 87" hose and drain gun kit, the CW-15 whip hose, and the AP-DK DrainKat™ Accessory Fitting Kit which contains the DF-75 DrainDawg™ inflatable tip, the CB-03 3/4" -1" cone fitting, the FA-01 male to male CO₂ to nitrogen adapter, the FA-03 CO₂ trans-fill adapter, and the the QN-S3 needle tip. Made in the USA.

A/C EASY TEE®

A/C Easy Tee® is a simple, inexpensive way to comply with International Mechanical Code M32-12. It provides a Condensate Drain Service Port that is flexible and easy to use with nitrogen, water, or shop vac. A/C Easy Tee® has no valve or moving parts that could fail.
